

Programming for behavioral scientists

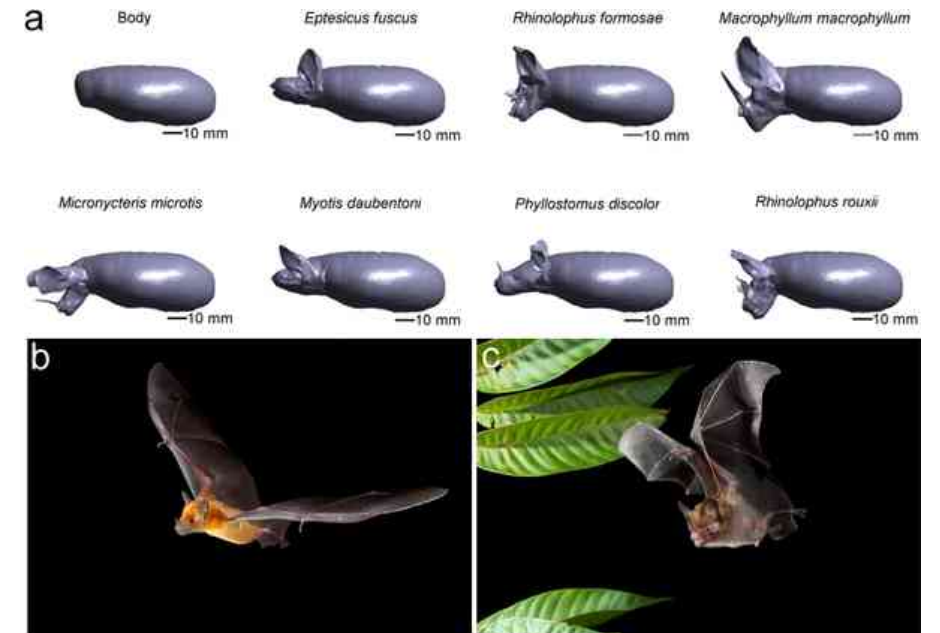

About me

- Education
 - Msc Experimental psychology
 - Msc Artificial intelligence
- Phd models of bat echolocation in engineering lab
- PostDoc Dept. Biology, University of Bristol
- Bristol Robotics Lab
- Started at UC in 2016

Sonar behavior in bats

Methods

About you

- Biochemistry/Psychology - BS 1
- Biological Sciences - BS1
- CECH Baccalaureate - 1
- Criminal Justice1
- Neuroscience - BS 2
- Neuroscience - BS/Psychology - BS 1
- Political Science/Psychology - BS 1
- Psychology 1
- Psychology - BA 1
- Psychology - BS31
- UCBA Associate - 1
- Please reach out if you have suggestions/ideas for improving the course. See also later.

PYTHON

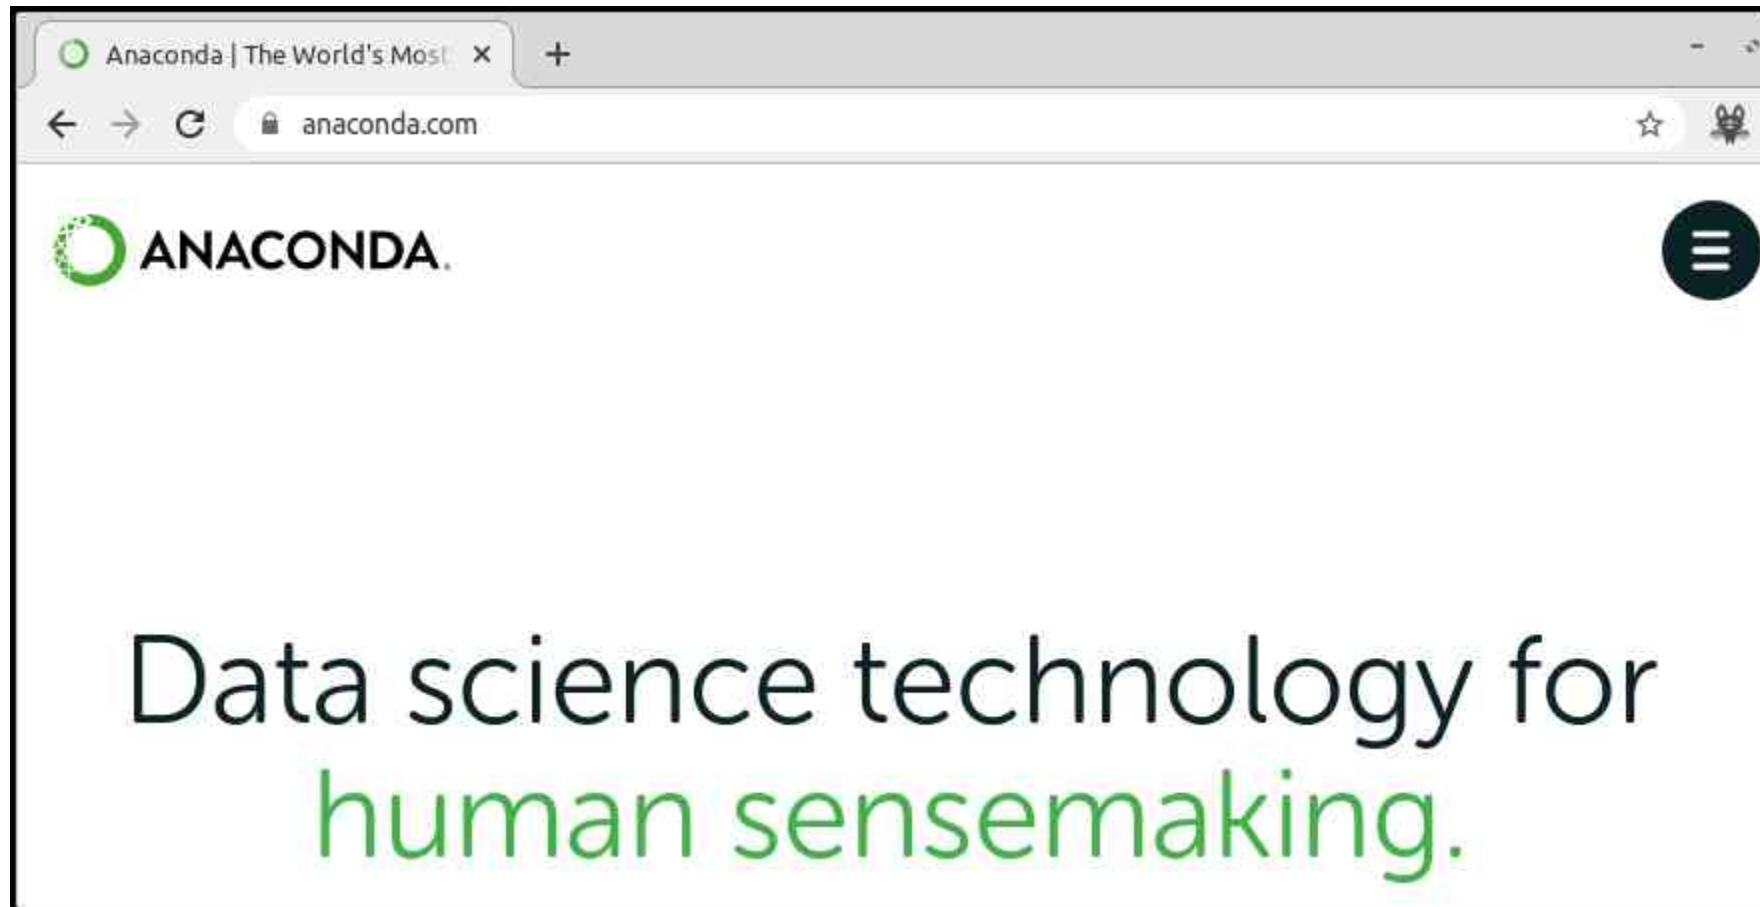

Installing Python

- Mac/Linux: Python might already be installed.
- However, you should still install a 'user version' of Python
- The Python website:

Anaconda Python

- Python + scientific packages + package management software

Anaconda | Individual Edition x +

← → ↻ anaconda.com/products/individual ☆ 🐼 🔴

Anaconda Installers

Windows

Python 3.8

64-Bit Graphical Installer (457 MB)

32-Bit Graphical Installer (403 MB)

MacOS

Python 3.8

64-Bit Graphical Installer (435 MB)

64-Bit Command Line Installer (428 MB)

Linux

Python 3.8

64-Bit (x86) Installer (529 MB)

64-Bit (Power8 and Power9) Installer (279 MB)

What is Python

- General Programming Language
 - This means that in principle it can be used for any programming task.
 - However, it excels at getting things done, quickly and efficiently

Beautiful is better than ugly.

Explicit is better than implicit.

Simple is better than complex.

Complex is better than complicated.

Flat is better than nested.

Sparse is better than dense.

Readability counts.

Popularity

Language Rank	Types	Spectrum Ranking
1. Python	  	100.0
2. C++	  	99.7
3. Java	  	97.5
4. C	  	96.7
5. C#	  	89.4
6. PHP		84.9
7. R		82.9
8. JavaScript	 	82.6
9. Go	 	76.4
10. Assembly		74.1

Biggus uptickus

US, Google searches for coding languages
100= highest annual traffic for any language

Source: Google Trends

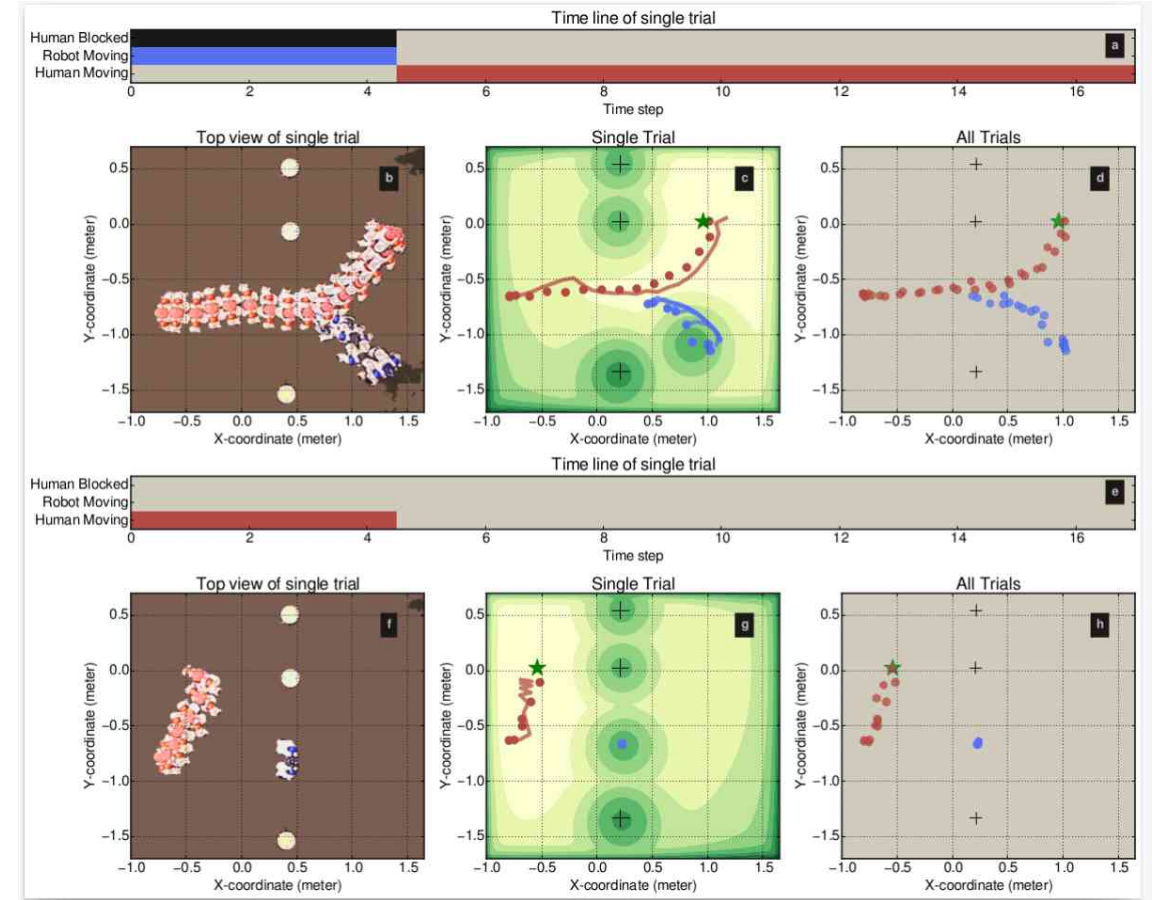

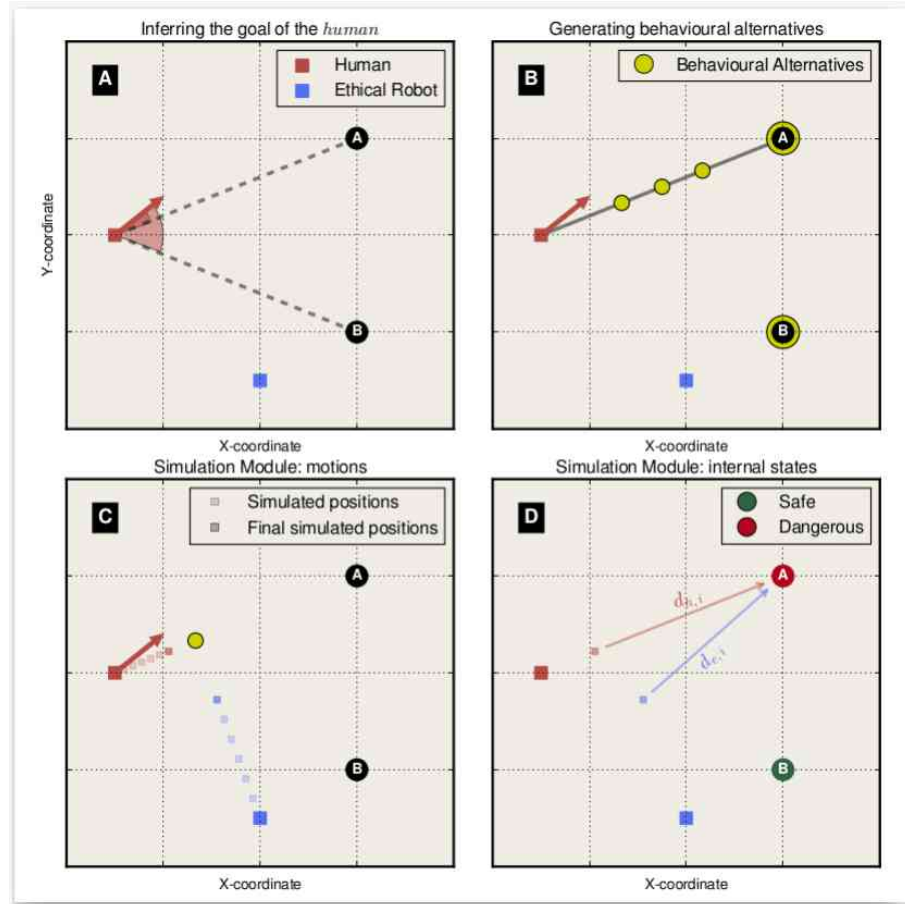

Why it is a good choice

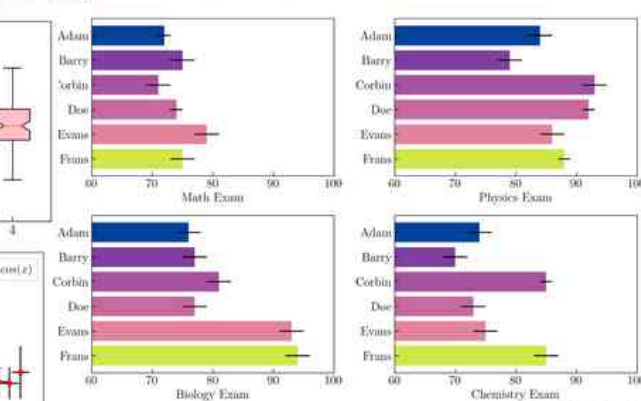

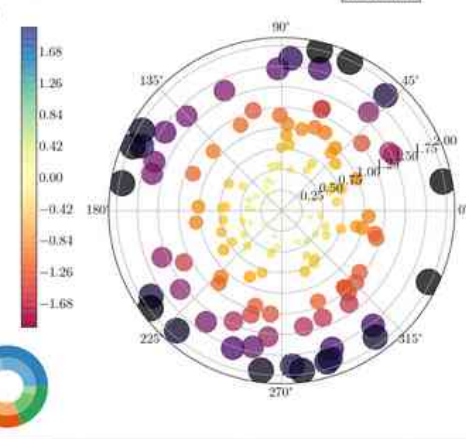

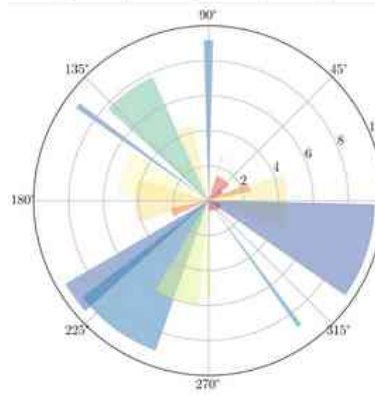

- Easy(ish):
 - Its design makes it very readable
 - High level programming language
 - Python has a gentle learning curve
- But powerful:
 - Many libraries – for real world tasks
 - Applicable to a wide range/size of problems
- Python is valued by employers
- It's free

COURSE CONTENT

Data analysis and visualization

Some virtual hardware programming

- Python is increasingly popular for programming hardware.
 - micropython/circuitpython
- We will **virtually** program one of these devices **to practice**.

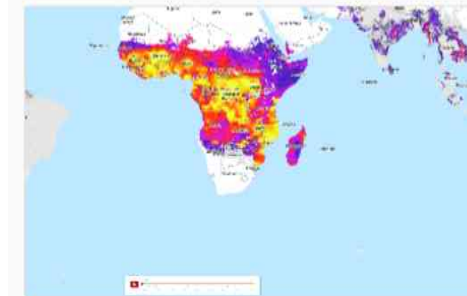

Goal: from data to stories

As the world's poorest economies are stagnating half a billion are expected to be in extreme poverty in 2030
May 06, 2019 by Max Roser

Net Results: We are winning the fight against malaria and you can help
April 25, 2019 by Max Roser

Top incomes: more women, but still very male-dominated
April 29, 2019 by Joe Hasell

Malaria was common across half the world – since then it has been eliminated in many regions

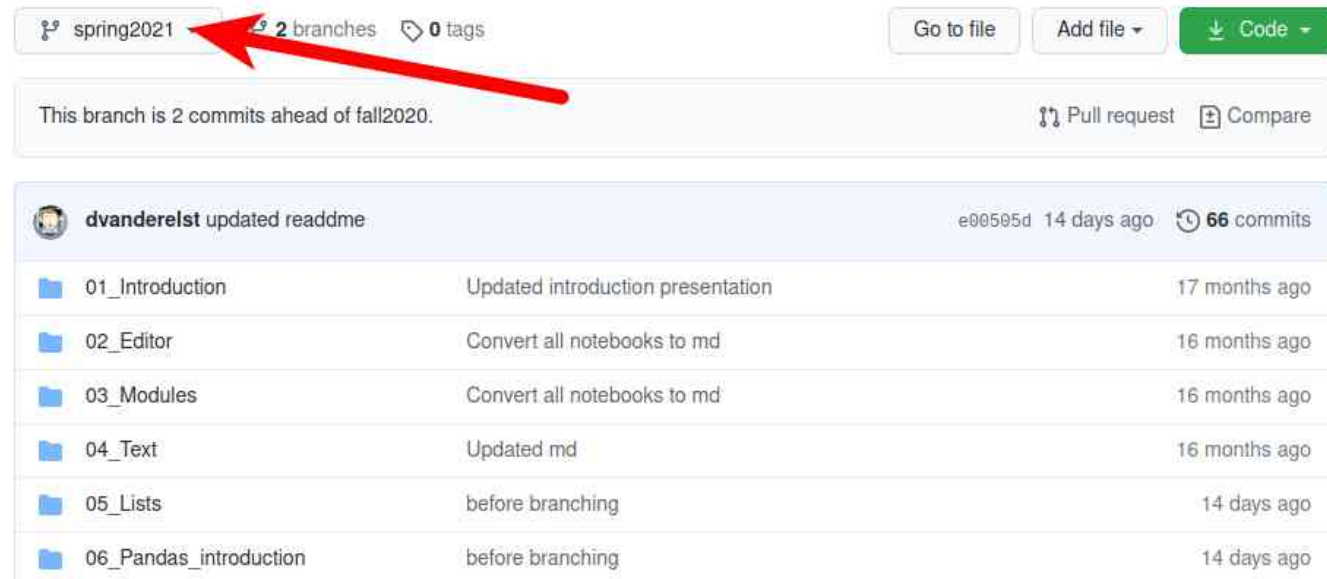

Beyond data analysis

- Robotics
- Machine Learning
- Website programming
- Microcontrollers

Planning

Part 1: Basics

- Basics of data analysis in Python
 - Reading in data
 - Selecting data
 - Statistical tests
 - Plotting of data

Part 2: data analysis

- Analysis of real world data:
 - Poverty in the USA
 - Use of force by police
 - Health in developing countries
 - Smoking behavior
 - Climate
 - Price of real estate

Grading

Part 1

- Homework to help you practice
- We will go over these together
- No grading
- But I strongly advise you complete

Part 2

- Data analysis assignments
- Upload code + output
- Graded on scale 0-5

Subject to change. There are quite a lot of you and normally, I would teach this in-person. We might have to revisit this. See also next slide.

Contact

- vanderdt@ucmail.uc.edu
- Office hours:
 - <https://vanderdt-office-hours.appointlet.com/b/dieter>
- Please share suggestions/remarks/concerns.
- This is your course. And we need to make it work.
- http://cincinnati.ca1.qualtrics.com/jfe/form/SV_2bBX3fl2wpEvz49

Zoom meeting recordings

- I will record the zoom meetings
- Share via Canvas
- Please remind me if I forget to start the recording

Homework

- Install python from anaconda.com
- Make sure you can start Spyder
